MORE expertise

Accounting & Outsourcing Services

Increase the quality and efficiency of your company by outsourcing specific compliance related tasks to us.

- Payroll accounting and social security consulting
- Accounting and financial statement preparation

Audit

For us, auditing is more than the confirmation of figures. It is a risk- and process-oriented approach that allows you to react to dangers early and at any time.

- Statutory Audits
- Group Audits
- Special Audits
- Grant Audit

Consulting

For us, it is the individual business process that is decisive for entrepreneurial efficiency, quality, speed, availability and security. We help you to focus on the the "big picture" and effectively adjust the most important levers.

- Optimization for core- and financial processes
- Change-, process-, knowledge- and test management
- Planning, design and implementation of systems for robotics, process mining, analytics

Financial Advisory Services

We stand for optimization, growth and for seizing opportunities. We help you to expand your financial scope of action and advise you on your M&A plans, the choice of suitable financing models and methods of raising capital.

- Due Diligence
 - Tax & Financial
- Business Valuation
- Expert opinion

IT Services

The appropriate IT consulting has become a valuable complementing support service. Considering highly individual client's expectations, we also offer client - specific software development and licensing models in addition to classic IT support.

- Software Development
- IT Services
- IT consulting

Tax

We also offer you a little extra in tax matters. In addition to our advice, we design your tailor-made solution for a sustainable and long-term reduction of your tax burden.

- General tax consulting
- International tax law
- Corporate and asset succession
- Transactions and structuring
