## Editorial

IASB Vice-Chair Sue Lloyd has been appointed to head the IFRS Interpretations Committee, and four IASB members who supported the recent major standards have been re-appointed for a second term. This underscores the IFRS Foundation's commitment, going forward, to the implementation of standards and to supporting their consistent application. This commitment appears necessary in the context of the implementation of the recent major standards, but older standards that continue to raise numerous issues should also benefit from it.

Enjoy your reading!

## EFRAG publishes draft endorsement advice recommending EU endorsement of IFRS 16

On 14 February 2017, EFRAG published its draft endorsement advice recommending that IFRS 16 should be endorsed by the EU. Stakeholders have until 13 March 2017 to comment on the draft.

This draft endorsement advice follows a preliminary consultation document, which was published for comment in October 2016 and which assessed whether the standard meets the technical criteria for endorsement set out in Regulation (EC) No 1606/2002 (see Beyond the GAAP no. 104, October 2016). This preliminary document was to be followed by additional outreach with users of financial statements, as required by the European Commission, and an economic study on the effects of the new standard.

The new draft reflects comments from stakeholders on the assessment of whether the standard meets the technical criteria, and presents the additional analyses required by the European Commission. On 22 February 2017, EFRAG also published the economic impact assessment for the standard.

In the draft endorsement advice to the European Commission, EFRAG emphasises the fact that timely endorsement of IFRS 16 is very important to some stakeholders, so that they can apply IFRS 16 at the same time as IFRS 15 (i.e. on 1 January 2018).
