

Mazars in insurance

Forward thinking solutions to help
you succeed in a transforming market

mazars

Your challenges

The insurance sector is witnessing rapid change. The biggest challenge facing the industry is to manage the uncertainty and risk that accompanies this disruption. Technological change, a shifting regulatory landscape and an uncertain economic backdrop are all changing consumers expectations. At Mazars, we provide insurers with audit, tax and advisory solutions that help turn these challenges into a prosperous future.

Our approach

We have a long track record in the insurance market and our credentials give us a wide view of the disruption in the insurance industry. We offer you a full range of solutions to serve auditing and business advisory needs.

Our business model combines international scope with the service levels you would expect from an individual business partner to provide tailored services, whether to brokers and intermediaries, life and general and corporate insurers, or to those businesses within the reinsurance market.

Who we can help:

General insurers

Life insurers

Reinsurers

Brokers

Captives

Mutual insurers

Pension funds

Our services

We can offer support and advice that includes audit and assurance services, tax compliance and tax structuring as well as insurance advisory services. Whether you want to optimise your financial performance, strengthen your internal controls or improve your strategy, our service is tailored to your specific requirements. At all times, we focus on understanding your needs and establishing a solid foundation that leads to successful investments and strategic decision-making.

Our services

Audit & assurance

In the fast-moving world of business, comprehensive and objective auditing continues to be invaluable. Building public trust in company reporting enhances confidence that enables business relationships and facilitates efficient capital allocation, promoting investment and growth. Through our audit and assurance work, we deliver insight and promote transparency by combining the right people with the right skills for every engagement while leveraging our collective knowledge and using consistent tools and methodologies.

Consulting

At Mazars, we help leaders across the insurance sector – from top management through to finance, risk, IT and HR – to achieve alignment and deliver peak performance through collaboration, thoughtful advice and up-to-date technical and digital expertise. Our actuarial services are fully embedded in our teams to support you in facing the industry's regulatory challenges. We can help you manage all your financial risks, define and implement your growth strategy and train your teams on financial issues.

Financial advisory

Whether you are seeking to close an M&A transaction, conduct a forensic investigation, contest an issue in court, restructure your business, or even finance a major investment, our global team of financial advisory experts will work closely with you to provide tailored, practical, and technical advice to guide you through these critical moments.

Outsourcing

Non-core activities need to be as lean and efficient as possible. At Mazars, we help global, regional and local insurers improve their performance, secure compliance processes, manage costs and provide a level of flexibility in resourcing and skills.

Sustainability

Sustainability has evolved substantially in recent years. Good corporate governance and social responsibility are not simply rooted in doing the right thing, they also bring with them performance benefits. We help insurance players address their sustainability strategies from design and embedding to reporting and assurance.

Tax

Today's tax systems pose significant challenges for business. The complexities of domestic and international rules mean insurers need clear, informed, and considered guidance. Working closely with you, we build transparent, integrated tax-efficient solutions that give you confidence, and help you excel in a sustainable way.

Our capabilities and team

We work with and are trusted by global insurance players, regional and local insurers, as well as regulators and supervisory authorities. When you partner with us, you will always have a single point of contact who will provide you with the best of what Mazars can offer, pulling together the right specialists and solutions from across the business to suit your strategy and objectives.

Our team comprises experts in insurance who have the global, regional, local and regulatory knowledge and technical expertise to deliver client service excellence seamlessly. We work on a single integrated service platform to bring together our multi-disciplinary team across a range of specialisms. The actuarial dimension is fully embedded in our teams so that we are particularly efficient to support you in facing the industry's regulatory challenges. Our actuarial teams are made up of high-calibre technical experts who specialise in financial engineering, insurance actuarial work, compensation, employee benefits, statistics and modelling.
