

# Meet Madison

Dear Clients,

We are pleased to introduce our new Forvis Mazars app Madison. This innovative web application has the ambition to become a full-fledged Employee self service portal that will make the work of employees, HR and payroll accountants easier.

## What can the Madison app offer you?

We have currently developed a payroll document repository to store documents for your employees, such as payslips, pension records, taxable income certificates and any other certificates as required by your employees.

### The main advantages of Madison:

- **Simplification of HR processes:**  
Employees can handle many of their payroll requirements independently, online and from the comfort of their own home. Save hours of time dealing with employee paperwork and follow-up communication.
- **Optimization for all devices:**  
The app is compatible with computers, mobile phones and tablets.
- **Easy access to documents:**  
Employees can access and independently download stored documents at any time.
- **Security:**  
The application is designed in such a way that individual documents no longer need to be password protected, while the security data and data protection will remain guaranteed.
- **Access for outgoing employees:**  
The portal can also remain open for employees who leave your company, allowing them to access and download all payroll documents for a specified period of time after their employment ends.

## What else is Madison up to?

We will shortly introduce new user-friendly Taxpayer Declaration and Application forms annual tax settlement, which employees intuitively complete by filling in tax documents.

And that's just the beginning – we'll be gradually expanding the Madison app with more useful functionality.
