> IFRS

More than 100 countries on all five continents require or permit the use of International Financial Reporting Standards (IFRS). Major economies in the Asia-Pacific region (Thailand included), North America and Latin America have set out a timetable for the full adoption of IFRS. Whether you are already compliant or planning to adopt IFRS, Mazars can help you: we have developed a comprehensive knowledge of IFRS. Our approach is practical and focused on the substance of the transactions. We always favour the economic view.

> DUE DILIGENCE REVIEW

Ensuring that an acquisition or disposal is completed successfully and at the right price is often a crucial component of an organisation's development.

At Mazars, we can work with you on all aspects of due diligence and post deal transformation. We ensure that when you commit to a deal, you are doing so on a fully informed basis, with the comfort of knowing that the risk of future surprise is minimised.

*“ Whatever your plans, we'll embrace
the challenge together ”*

Although Mazars is an integrated global partnership and the only one of its kind in the accounting profession, it nevertheless operates in most countries at a scale that makes it conducive to a “hands-on” approach. Within each country, Mazars has seasoned professional advisors as the main point of contact.

Mazars, through its integrated partnership structure and as a “borderless firm”, can quickly draw on resources from outside each country. This helps to ensure one global standard. The combination of a local “hands-on” approach with a globally integrated network has proven to yield excellent results for clients.
